EDUCATION

Rajagiri School of Engineering and Technology (Autonomous) | Kerala, India 2023-2027
Bachelor of Technology in Computer Science Engineering, with a minor in Robotics (CGPA: 8.95)

Our Own English High School | Sharjah, UAE 2023
12th CBSE Board (95%)

Our Own English High School | Sharjah, UAE 2021
10th CBSE Board (94.8%)

PROFESSIONAL EXPERIENCE

MariApps Marine Solutions | Kochi, Kerala, India May, 2025
Software Engineer Intern

- Designed and implemented an ASP.NET Core MVC Employee Management System supporting end-to-end CRUD operations across 5+ employee data fields.
- Connected the application to a SQL Server database using ADO.NET, handling all data retrieval, insertion, and update operations.

ACM Student Chapter, RSET | Kochi, Kerala, India Nov, 2024 - Aug, 2025
Member, Women Innovation SubCore Team

- Contributed to ideation and planning of technical events as 1 of 3 members in the Women Innovation SubCore Team.

PROJECTS

Non-linear Dynamics in Neural Networks Jan, 2026 - Mar, 2026

- As part of a 3-member team, contributed to preprocessing resting-state fMRI data from 40 subjects and generated connectivity matrices across 24 ROIs using the AAL atlas for static and dynamic analysis.
- Built dynamic network models using NetworkX and NiLearn to extract graph-theoretic metrics, capturing nonlinear and time-varying connectivity across large-scale brain regions.
- Compared connectivity patterns between healthy subjects and Parkinson's patients, revealing significant disruptions in functional connectivity across 20+ Parkinson's-affected regions

Predicting Stellar Luminosity Nov, 2025

- Built an ML pipeline to predict stellar luminosity from temperature and radius using the Gaia DR3 dataset.
- Trained and compared 3 models (Linear Regression, Random Forest, and Gradient Boosting), evaluating performance using RMSE, MAE, and R^2 metrics.
- Validated predictions against the Stefan-Boltzmann law through Matplotlib visualizations, confirming theoretical consistency across the dataset.

TECHNICAL SKILLS

Languages: Python, C, C#, Java, JavaScript, SQL, HTML, CSS

Databases: MySQL, SQL Server

Tools & Frameworks: Git, GitHub, ASP.NET Core MVC, LaTeX
